

General help

Read every night and record progress in blue reading record. Work with your child on their homework.

Continue to practise the letter sounds and keywords that your child has brought home.

Help your child to write their name using correct letter formation and with a capital letter to start.

Play counting games. Talk about odd and even numbers on houses and the different shapes you can see in a house.

Practise counting forwards and backwards to 10 then 20.

Hadrian Academy

Foundation Stage Tom Daley

Our class topic this half term is

Houses and Homes

Houses and Homes

Within this topic we will be:

Looking at different types of homes and the materials they are made of.

Talking about homes in the past and present.

Learning about the way we live and how others may live differently.

Looking at the places where different animals live.

Finding out why different animals live in different places.

Exploring the locality.

How you can help at home:

Look at shapes in the environment.

Talk with your child about the topic.

Help your child to discover what he or she already knows about the topic.

Look for books in the library together.

Talk with your child about what he or she has learnt as the term goes by.

Encourage and show interest in the topic.
